

Uniquely SAFTI Alumni Family Fun @ Singapore Discovery Centre and SAFTI MI on 10 Sep 06.

On 10 Sep 06, our SAFTIrians, SAFTI Alumni members, family and friends visited the newly re-vamped Singapore Discovery Centre (SDC). Spanning a myriad of themes, the SDC gave all visitors a multi-sensory experience where compelling audio-visual and hands-on immersive games provided guests with a fun and mind-

engaging time. We came away with a better understanding of our past achievements and a better appreciation of the Singapore Story.

The SAFTI Lake was also made available to all for fishing. Highly experienced anglers were present to guide many fishing enthusiasts who had little experience on the right techniques and the correct use of bait and fishing gear. The paddle-boat was one of the main highlights of the day, as families bonded together as they travelled around the vast and beautiful lake. For the young of our generation, an art competition themed “My Future Singapore” was conducted with many attractive prizes to be won.

Enhanced from the standard SAFTI bus tour, visitors also got a rare chance to enter the Ceremonial Hall, viewed the breath-taking sights from the top of the SAFTI Tower, visited SAFTI sports facilities and have a glimpse of the Cadets accommodation area. Visitors also had the opportunity to simulate fire the latest SAR 21 and sample the modern day’s military combat rations assisted by our own specialists.
