

Knowledge Management COP Session

The first KM COP session was held on Wed 30 Jan from 1500-1800 hours at the SAFTI MI Officers' Mess. A total of 44 participants, including members of the SAFTI Alumni Association, attended a short talk by David Gurteen, a renowned KM practitioner who presented on "KM and Social Tools". The audience then participated in a knowledge cafe which was facilitated by David, and found the experience enriching.

LTC Karuna Ramanathan from CLD would like to thank David Gurteen for agreeing to share his experiences and promised more COP sessions of this nature to enable both SAF and Alumni participants to increase their understanding on knowledge management related issues and how these may impact our work.
