

37th MIDS Batch 10th Anniversary Gathering

There is no better place for the celebration of the 37th MIDS batch 10th Commissioning Anniversary than by coming back to where it all started, Midshipman School Wing, OCS in SAFTI-MI. The crowd, consisting of batchboys, their partners and childrens, reminisce about the good old time through our collection of photos, as well as share about their current achievements in life in the warm evening.

Gracing the gathering is LTC Lam Ee Her, our beloved Course Officer then. It is a night to remember as the batch traded stories and had the batch photos taken together with their family members. The high point is where we found an old album on our MSTD in the Gunroom, which really brings back all the fond memories.

The event lasted well into the night and eventually it was time to say goodbye. We bid farewell to each other unwillingly, but with a promise to meet again the following year for another batch gathering,
